

** Photo demonstrates cut away version. Shows insulation factor.*

- *Conserves ground source heat*
- *Structural strength and insulation second to none*
- *Easily stackable to extend to your desired water line depth*
- *Great addition to any SPI Livestock Waterer*

Highly Recommended
for ALL Cold Climate Installations

- Conserves the earth's ground source heat as it rises up the vertical shaft to help protect the water line from freeze ups
- Excellent insulating properties (R15) and amazing structural strength
- Easily stackable for deeper installations

Part Specifications

Dimensions: Insulated Earth Tube

Width 12 3/4" (32.4 cm)

Height 49" (124.5 cm)

Insulation:

2 1/2" (6.4 cm)

Uniqueness:

Join together for desired length

For Models:

All SPI Livestock Waterers

5 Year Warranty
(Some Restrictions Apply)
