

Stock Tanks ideal for multiple purposes

- One piece, all polyethylene construction won't rust, chip or corrode
- Uniform wall thickness
- Rounded corners and smooth edges provide a safe drinking environment for your livestock
- Feedlot acids and manure have no effect on the polyethylene
- Construction is slightly flexible allowing the stock tank to resist denting from the effects of weather, accidents or animals
- UV stabilized
- Range of capacities to meet almost any watering requirement
- Light weight and durable allows for ease of movement

- One piece construction
- Won't rust, chip or corrode
- Light weight and durable
- Rounded corners
- Smooth edges
- Dent resistant
