Sport Utility Sled / Shelter

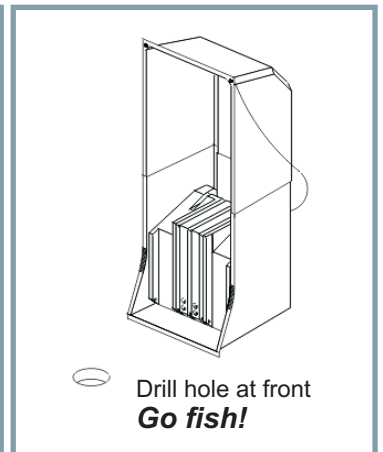

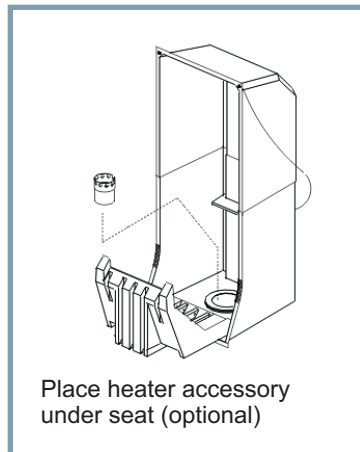

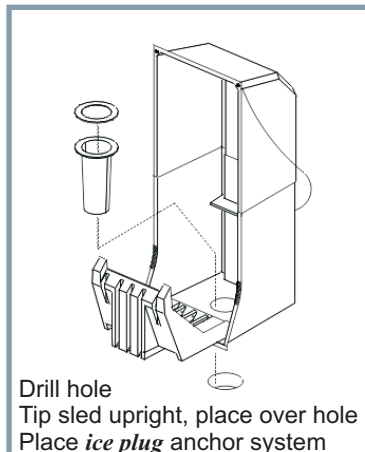

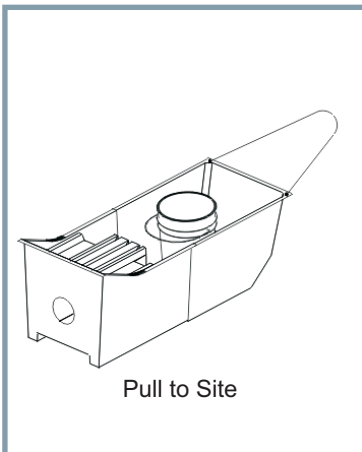

A Sled ...

- One piece sled complete with pull rope
- Molded in runners
- Deep sidewalls for large load
- Double roll over flange at top for strength
- Lightweight at 22 lbs.
- Recycled polyethylene plastic
- Stackable (great for shipping and group outings)
- 2' w x 2' h x 5'
- Pulls easily behind A.T.V. or snowmobile

A Shelter ...

- One-step setup (no hardware required)
- Integrated *flip* seat
- Standard heating accessory optional under seat
- Unique *ice plug* anchor system (resists 60 km/h winds)
- Ergonomically designed for warm snug fit
- Fits into most small compact cars
- Hitch, cover and runner accessories available
