

Mounting:

1. Use 3 1/2" (9 cm) or smaller diameter pipes inside
or
2. Bracket to outside vertical mounting area

- When mounted vertically the Cliff Hanger does not create a standing surface (greater than 30° angle or decline)
- Tested with 500 lbs. (226.8 kg) hanging from the over hanging cliff
- Futuristic shape and design

Cliff Hanger (con't)

single climber

mounted bell

mounted tulip

tulip climber

launch pad

up/down climber

bell climber

climbing centre

climbing wall

There are many configurations you can make using the Cliff Hanger. These are just ideas to get your creative juices flowing.
