

DECK MOUNTING SYSTEM

The face of the slide has a 1° draft to ensure the top of the slide face contacts the face of the deck first. When the hardware is installed the top of the slide face is pulled tightly against the face of the deck.

List of slides with 1° draft:

3' Flat Slide (3DWFS)

4' Flat Slide (4DWFS)

4' Curve Slide (4CURVED)

5' Flat Slide (5DWFS)

5' Curve Slide (5CURVED)

6' Spiral Slide (SS6,HP)

All Starglide Hoods
& Starglide Single Entrance

The face of the slide is concave. When placed against the face of the deck this causes the outer edges of the slide to contact the face of the deck first. By installing the centre mounting bolts first the outer edges of the slide are pressed tightly against the face of the deck.

List of slides with concave face:

2' Flat Slide (2DWFS)

3' Curve Slide (3CURVED,N)

3' Triple Rail Slide (3TRS)

4' Triple Rail Slide (4TRS)

4' Wave Slide (4DWWS)

5' Triple Rail Slide (5TRS)

5' Wave Slide (5DWWS)

6' Wave Slide (6DWWS,2002)
